The Future of World Evangelization Unreached Peoples '84

offers a retrospect and a prospect in 19 provocative essays. The book details developments in world evangelization since the inception of the Lausanne Movement in 1974. Contributors assess the potential for completion of the task of world evangelization during the next decade.

An additional feature of the book is the expansion of the familiar registry of the unreached to include new information about people groups, their languages and the availability of scripture portions in their languages.
